On behalf of the Bank of Mongolia, I would like to congratulate the SEACEN Centre with its 25th Anniversary and wish the SEACEN Centre success in pursuing its noble aspiration of becoming a premier research and training centre for central banks in the region.

As the only central Asian member of the SEACEN to date, Mongolia bring a special continental flavor to the SEACEN family. And taking this opportunity, we thank SEACEN for its tremendous work in helping bring together our community of Asian central banks and strengthen economic cooperation in the region. We wish the SEACEN further success in its endeavors to help our fellow members central banks respond to the challenges we face in a globalised economic and financial environment and observer.
